DETAILED ACTION

Response to Amendment

1. Applicant's arguments, in view of the amendments filed 3/16/06, with respect to claims 1, 8 and 12 have been fully considered and are persuasive. The rejection of claims 1-10 and 12-18 has been withdrawn.
2. Claim 11 has been canceled.

Allowable Subject Matter

3. Claims 1-10 and 12-18 are allowed.
4. The following is a statement of reasons for the indication of allowable subject matter: Independent claims 1, 8 and 12, while all different in scope, teach performing an empirical analysis of a plurality of user actions and inputs to determine a plurality of different trigger events that cause operating states of the speech recognition system to change in response thereto and dynamically updating a single floating window for individually and sequentially displaying frames at different times. None of the prior art on record teaches these limitations. It would not have been obvious to one of ordinary skill in the art at the time of invention to modify the systems in the prior art to arrive at the Applicant's invention.
